The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/574,474	Applicant(s) BENGTTSSON, HANS	
	Examiner Charles A. Fox	Art Unit 3652	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 6 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by THORGERSEN (U.S. Patent No. 2004/0033126).

With respect to claim 1, THORGERSEN discloses a system for loading and unloading loose cargo in a cargo hold of a plane comprising:

- a conveyor 20 with a transport organ,
- an intermediate conveyor 11 which rests on a transport side of conveyor 20 (see Figure 1) and extends into a cargo hold 101
- where the transport organ is capable of being deflected in front of the intermediate conveyor when viewed in the direction of loading-conveying, perpendicular to the plane of transport, towards the conveying side of the intermediate conveyor, so as to guide the cargo onto the conveying side of the intermediate conveyor.

With respect to claims 6 and 15, THORGERSEN discloses the system as above and:

- (claim 6) where the intermediate conveyor is placed on the transport organ with the aid of a roller (see Figure 1).

- (claim 15) the intermediate conveyor 11 is placed on the conveyor 20 so as to be displaceable in the conveying direction together with the raising means.

Response to Amendment

The amendment to the claims filed on February 1, 2008 have been placed into the record.

Allowable Subject Matter

Claims 2-5 and 714 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claim 2 has limitations dealing with a raising means for a conveyor belt. This element is not taught or suggested by the closest prior art of Thorgersen et al.

Response to Arguments

Applicant's arguments filed February 1, 2008 have been fully considered but they are not persuasive. Regarding the displacement of the transport organ, it is noted that the transport organ is the entire first conveying mechanism including its support frame. As such any movement of any part of the device will meet the claim as written. As such the previous rejections stand and are hereby made final.

Regarding the claim to Foreign Priority the previous objection has been withdrawn.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
